

PAKAWASTE
WASTE HANDLING SYSTEMS

92479

All PAKAWASTE Equipment conforms to the EC machine safety directive (2006/42/EC previously 98/37/EC & amendments)

BIN EQUIPMENT

BIN WASHER

As standard the container wash unit is designed to clean two and four wheeled trade waste refuse containers, although it can be adapted to clean most types of containers.

Benefits

- Manufactured from satin stainless steel, to meet IP65 and CE Regulations
- Container presence switch indicates to the machine what size of container is to be washed
- Cleans internal and external surfaces of the container with sanitising fluid from high pressure nozzles
- Rinses container with clean water
- After washing, the container remains in the tilted position to allow for maximum drainage
- If the unit is to be sited internally, the use of a particulates and steam extraction system is recommended
- Suitable for use in hospitals and the food industry
