

5. Environmental Policy

Pakawaste recognises that its activities have an environmental impact and it is a Company objective to minimise this effect through having an effective Environmental Management System.

Measures adopted for the implementation, maintenance, monitoring and improvement of the Environmental Management System include: -

- *Complying with all relevant regulatory requirements and environmental legislation*
- *Working closely with clients, suppliers and partners to find solutions that minimises the environmental impact of the company's products and activities and maximises the opportunity for recycling waste and minimising the use of natural resources.*
- *Engendering environmental awareness and vigilance in personnel at all levels within the company and taking appropriate corrective actions to reported problems and preventative actions to potential problems.*
- *Ensuring that all personnel understand their responsibilities with regard to the requirements of the Environmental Management System.*
- *Setting environmental objectives and targets to continually improve our environmental performance and therefore reduce pollution, and use measurement, inspection, audit and review to monitor progress towards them.*
- *Making this policy available to the general public and potential and existing clients through conventional marketing methods and on the Company's web site.*
- *Considering the environmental impact when deciding on capital expenditure.*
