All PAKAWASTE Equipment conforms to the EC machine safety directive (2006/42/EC previously 98/37/EC & amendments)

MOBILE ROTOKRUSH

SPECIALIST COMPACTORS

The **Rotokrush** compaction system is a unique product which provides the customer with the flexibility to load up to 50 cubic yard containers with bulky materials such as packing cases, pallets, wood, glass fibre and other industrial / difficult medium density waste materials whilst achieving compaction ratios on average of 4:1.

Unrestricted by tracks or power supplies, the **Mobile Rotokrush** is powered by a water-cooled diesel engine and is ideal for working on Herringbone layout sites or on sites where 3-phase power is unavailable. Simple to operate, the driver sits high up in his cab gaining a clear view both when manoeuvring and compacting. Many operator options are available.

TECHNICAL SPECIFICATION

Height with arm raised	7150 mm (281.5 in)
Travel height arm down	3725 mm (146.65 in)
Travel length arm down	7730 mm (304.33 in)
Cab height	4000 mm (157.5 in)
Machine width	2380 mm (93.7 in)
Working length	10,400 mm (409.5 in)
Roller travel limit	6600 mm (267.75 in)
Roller width	1700 mm (67 in)
Roller weight	1.2 tonnes
Total weight	7.8 tonnes
Minimum level of waste	500 mm (19.75 in)
